

Cloud Solutions AWS Training

Why choose AWS training at ALEF Training Center?

We have extensive experience with training in the cloud giant Amazon Web Services (AWS). We are not only an AWS Authorized Training Partner but also an Advanced Consultancy Partner.

- Wide range of AWS training courses in our portfolio
- Trainers with expertise in the infrastructure itself and real-world experience in implementing AWS projects
- International-level references
- Testing center for obtaining official AWS certification
- Tailored training with other technologies
