

F5 training

Why F5 training with ALEF Training center?

F5 Networks is a leader in the "Application Delivery Controller" segment, which provides high performance and availability of applications, intelligent DNS services, and user authentication. This complements our portfolio nicely. **ALEF** is not only an authorized training partner but also a distributor that helps partners implement F5 solutions.

- The largest team of F5 specialists in the EMEA region
- Trainers have extensive implementation knowledge
- We offer the full portfolio of F5 training
- We have developed our own training on NGINX.
